“Which enlargements of the ESD indicator set should be tackled first?”

Micro level

Teaching material that is developed in a participatory way, by defining teachers/schools understanding of ESD competencies.

Enlargement of ESD-Indicators

The present version is very much focussed on universities. Indicators and investigations should be extended to teacher training centres of all kinds of schools and levels.

The one's which will have a practical impact.

E.g.: Teaching materials;
teacher competencies

Enlargement

Combination of 1st, 2nd, 3rd phase in teacher education.
